VIRGINIA ELECTRONICS ASSOCIATION OF LYNCHBURG, INC.

The Virginia Electronics Association was organized in 1953 to encourage and assist independent electronics service dealers in improving the technical skills of its members, promoting better business practices and improving and protecting the ethics of the electronics service industry. The Virginia Electronics Association was incorporated in 1961 as a non-profit corporation. In 1995, the name was changed to the Virginia Professional Electronics Association to avoid confusion with the Virginia Education Association and to promote professionalism among its members.

The Virginia Electronics Association of Lynchburg was formed in 1960. Membership in the Association was open to individuals whose full-time occupation was in the business of selling, servicing or repairing of radio, television, or electronic equipment. Membership was limited to the owner, operator/manager, or partner in the ownership of the business.
